

**Download and Install Guide for the Logic Controls® LD9900 Pole Display**  
**Operating Systems: Microsoft® Windows® 98**  
**QuickBooks Point of Sale Versions 4.0**

**NOTE:** Please make sure you have the latest updates for Point of Sale. (If needed select **Update QBPOS** from the **File** menu.)

***To download and install the drivers:***

1. Download the file **Logic Controls LD9900\_Win98** to your desktop.
2. Once downloaded, double-click the file on your desktop. The driver files will be automatically extracted to the following location: **C:\Drivers\Logic Controls LD9900\_Win98**. Click **Unzip** to create the directory.
3. Click **OK** on the WinZip® Self-Extractor message.
4. Ensure your Pole Display has power.
5. Plug the Pole Display's USB cable into an available USB port on your computer.
6. Right-click My Computer and select **Properties**.
7. Select **Device Manager**.
8. Select **View by Type**.
9. Under Other Devices, double-click **Line Display LD9000**.
10. Select **Re-Install Driver**.
11. Click **Next**.
12. Select **Search for a Suitable Driver for My Device** and **Next**.
13. Select to **Specify a Location** and click **Browse**.
14. Browse to **C:\Drivers\ Logic Controls LD9900\_Win98** and click **OK**.
15. Click **Next**.
16. Click **Next**.
17. When the software has finished installing, click **Finish** and then **Close**.

**Configure Point of Sale to work with your Pole Display:**

1. Start Point of Sale.
2. From the **Edit** menu, choose **Preferences** and then select **Workstation**.
3. Select **Customer Pole Display** in the preferences.
4. Select **Logic Controls LD-9900 Series (USB)** in the Pole Display field.
5. In the **Connected to** field, select **USB** (if not already selected).
6. Customize the message displayed as desired. Press **F1** for help.
7. Click **Save**.

***Your Pole Display is ready to use with Point of Sale!***
